Mr. Howard Eaton
Production Director
Station WYBC
New Haven,Conn.

Dear Howie,

I have listed below three men who I believe will do the very best job in the NBC contest you mentioned in your letter. It was as hard for me to explain to them just what I had in mind as it was for you to try and give me the story. What plot NBC has in mind I can not imagine, however, these boys should really hold their own with the best of them:

William Brooks
James Rosenfield
John Doty
David Dugan

I could also list these fellows as to their sex appeal, musical knowledge, and gay patter as each has his own characteristics,but any one of them alone is tops with me.

Since our return to the Hanover plain, I at least have been beset with a terrible cloud of hour exams, special musical broadcasts (the latest one involved a near-by girls' school in a combined glee club concert.....123 people on the stage at once made so much noise who needed a radio to hear them), and just plain involving work. This coming week-end is our big time,and while I don't think it will be as bombastic as Derby Day, we have a radio queen to choose and various remotes so that I must resign myself to only fleeting glimpses of my date. "Father" John is going to Jersey to see the ball and chain and bambino, so I am inclined to think this quiet married life may not be so bad after all the rumors I have heard.

I have undertaken to get our Sports director on the ball as far as exchange "news releases" and future tape interviews are concerned, so as soon as things calm down I should have more concrete information for you. In closing may I say that all you WYBC people did a bang-up job as host and my special thanks to you, Tony, and Art Tebbins for a royal reception. I hope very much you can drop in here sometime soon.

Sincerely yours,
Bill
